## Barclays and First Trust®

Neither Barclays Bank PLC ("BB PLC") nor any of its affiliates (collectively "Barclays") is the issuer or producer of Delaware Life Growth Pathway<sup>SM</sup> fixed index annuity and Barclays has no responsibilities, obligations or duties to investors in Delaware Life Growth Pathway<sup>SM</sup>. The First Trust Capital Strength® Barclays 5% Index (the "Index"), together with any Barclays indices that are components of the Index, is a trademark owned by Barclays and, together with any component indices and index data, is licensed for use by Delaware Life Insurance Company as the issuer or producer of Delaware Life Growth Pathway<sup>SM</sup> fixed index annuity (the "Issuer").

Barclays' only relationship with the Issuer in respect of the Index is the licensing of the Index, which is administered, compiled and published by BB PLC in its role as the index sponsor (the "Index Sponsor") without regard to the Issuer or the Delaware Life Growth Pathway<sup>SM</sup> or investors in the Delaware Life Growth Pathway<sup>SM</sup>. Additionally, Delaware Life Insurance Company as issuer or producer of Delaware Life Growth Pathway<sup>SM</sup> may for itself execute transaction(s) with Barclays in or relating to the Index in connection with Delaware Life Growth Pathway<sup>SM</sup>. Investors acquire Delaware Life Growth Pathway<sup>SM</sup> from Delaware Life Insurance Company and investors neither acquire any interest in the Index nor enter into any relationship of any kind whatsoever with Barclays upon making an investment in Delaware Life Growth Pathway<sup>SM</sup>. The Delaware Life Growth Pathway<sup>SM</sup> is not sponsored, endorsed, sold or promoted by Barclays and Barclays makes no representation regarding the advisability of the Delaware Life Growth Pathway<sup>SM</sup> or use of the Index or any data included therein. Barclays shall not be liable in any way to the Issuer, investors or to other third parties in respect of the use or accuracy of the Index or any data included therein.

Barclays Index Administration ("BINDA"), a distinct function within BB PLC, is responsible for day-to-day governance of BB PLC's activities as Index Sponsor.

To protect the integrity of Barclays' indices, BB PLC has in place a control framework designed to identify and remove and/or mitigate (as appropriate) conflicts of interest. Within the control framework, BINDA has the following specific responsibilities:

- oversight of any third party index calculation agent;
- acting as approvals body for index lifecycle events (index launch, change and retirement); and
- resolving unforeseen index calculation issues where discretion or interpretation may be required (for example: upon the occurrence of market disruption events).

To promote the independence of BINDA, the function is operationally separate from BB PLC's sales, trading and structuring desks, investment managers, and other business units that have, or may be perceived to have, interests that may conflict with the independence or integrity of Barclays' indices.

Notwithstanding the foregoing, potential conflicts of interest exist as a consequence of BB PLC providing indices alongside its other businesses. Please note the following in relation to Barclays' indices:

- BB PLC may act in multiple capacities with respect to a particular index including, but not limited to, functioning as index sponsor, index administrator, index owner and licensor.
- Sales, trading or structuring desks in BB PLC may launch products linked to the performance of a index. These products are typically hedged by BB PLC's trading desks. In hedging an index, a trading desk may purchase or sell constituents of that index. These purchases or sales may affect the prices of the index constituents which could in turn affect the level of that index.
- BB PLC may establish investment funds that track an index or otherwise use an index for portfolio or asset allocation decisions.

The Index Sponsor is under no obligation to continue the administration, compilation and publication of the Index or the level of the Index. While the Index Sponsor currently employs the methodology ascribed to the Index (and application of such methodology shall be conclusive and binding), no assurance can be given that market, regulatory, juridical, financial, fiscal or other circumstances (including, but not limited to, any changes to or any suspension or termination of or any other events affecting any constituent within the Index) will not arise that would, in the view of the Index Sponsor, necessitate an adjustment, modification or change of such methodology. In certain circumstances, the Index Sponsor may suspend or terminate the Index. The Index Sponsor has appointed a third-party agent (the "Index Calculation Agent") to calculate and maintain the Index. While the Index Sponsor is responsible for the operation of the Index, certain aspects have thus been outsourced to the Index Calculation Agent.

### **There are risks associated with any product linked to this Index:**

- Allocation to a crediting method using the Index provides the potential for interest to be credited based in part on the performance of the Index.
- The Index may not increase in value due to a number of factors and as a result there may be no interest credited to the annuity contract.
- Because the Index has a consistent volatility target, the Index performance will not match the performance of the underlying Index components and may dampen the performance of the Index in rising markets.
- The Index has a limited performance history and past performance is no indication of future performance.
- The Index may be composed of a small number of index components at any given time and the performance of the Index involves risk associated with international and U.S. equities and bonds, commodities, and precious metals, which may impact the Index value and the interest credited to the annuity contract.

Premiums allocated to a crediting method using the Index is not a direct investment in the stock markets, bond markets, commodities, precious metals, or in the index. Purchasers of products linked to the Index will have no access to the components underlying the Index. The Index is calculated on an excess return basis.

## **CIBC**

The RBA Select Equity Yield CIBC 5% Index™ (the “Index”) is the exclusive property of Canadian Imperial Bank of Commerce (Canadian Imperial Bank of Commerce, together with its affiliates, “CIBC”). CIBC has engaged Solactive AG (together with its affiliates, “Solactive”) to maintain and to make certain calculations related to the Index. “Canadian Imperial Bank of Commerce”, “CIBC” and the names of the “Index” (collectively, the “CIBC Marks”) are trademarks or service marks of CIBC. CIBC has licensed use of the Index and the CIBC Marks to Delaware Life Insurance Company (“DLIC”) for use in one or more products offered by DLIC (the “Product(s)”). CIBC developed the Index without considering the needs of DLIC or any annuity owner or annuitant. CIBC is not the issuer of the Products and its sole contractual relationship with DLIC is to license the use of the Index and the CIBC Marks to DLIC.

Richard Bernstein Advisors LLC (“RBA”) contributed to the development of the Index without considering the needs of DLIC or any annuity owner or annuitant. Neither CIBC, RBA or Solactive make any representation or warranty, express or implied, regarding the Index or their development and have no responsibilities, obligations or liabilities with respect to the inception, adjustment, maintenance, operation or calculation of the Index. None of CIBC, RBA or Solactive are affiliated with each other or control or are controlled by each other. “RBA Richard Bernstein Advisors”™ is a registered trademark of RBA. None of CIBC, RBA, Solactive or any other third-party licensor (collectively, the “Index Parties”) to CIBC is acting, or has been authorized to act, as an agent of DLIC or has in any way sponsored, promoted, solicited, negotiated, endorsed, offered, sold, issued, supported, structured or priced any Products or provided investment advice to DLIC. No Index Party is a fiduciary or agent of any purchaser, seller or holder of any Product, or has made any representation or warranty, express or implied, regarding the advisability of purchasing, selling or holding any Product or the ability of any Index to track corresponding or relative market performance. Purchasers of any Product neither acquire any interest in any Index nor enter into any relationship of any kind whatsoever with any of the Index Parties. No Index Party guarantees the timeliness, accurateness, or completeness of any Index or any data or information relating thereto and shall have no liability in connection with any Index or any data or information relating thereto. No Index Party shall have any liability with respect to any Product, nor any liability for any loss relating to any Product, whether arising directly or indirectly from the use of any Index, its methodology, or otherwise. The selection of any Index for use with any Product does not obligate DLIC to invest in the components of such Index. Any obligation to invest annuity premiums or other amounts received under the Products is determined solely by DLIC.

Solactive is a trademark and service mark of Solactive AG. Solactive is not affiliated with DLIC or CIBC. Solactive’s association with CIBC is limited to Solactive’s role to act as the administrator and calculation agent of the Index, which is the exclusive property of CIBC. The Products are not sponsored, promoted, sold or supported in any other manner by Solactive nor does Solactive offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or any Index level at any time or in any other respect.

In calculating the level of the Index, the index methodology may deduct a maintenance fee. This fee will reduce the level of the Index and thus the Index’s return, if any. Furthermore, any Index that includes a volatility control as part of the index methodology may result in less fluctuation in rates of return as compared to indices without volatility controls. It may also reduce the overall rate of return for products referencing such Index as compared to other indices not subject to volatility controls.
