If one of the optional living benefit riders[1] (except Income Boost℠) is selected, investment fund options will be limited to the designated selection of 25 funds marked with the ★.

The investment fund options marked with a ♦ are available to be illustrated.

Investment category descriptions

Fixed Income – invested in U.S. and global bonds and other interest bearing investments.

Cautious Allocation – invested in multiple asset classes including stocks, bonds, and cash seeking both income and capital appreciation. Equity exposures are typically between 30% and 50%.

Moderate Allocation – invested in multiple asset classes including stocks, bonds, and cash seeking both income and capital appreciation. Equity exposures are typically between 50% and 70%.

Aggressive Allocation – invested in multiple asset classes including stocks, bonds, and cash seeking both income and capital appreciation. Equity exposures are typically between 70% and 85%.

Domestic Large-Cap – invested primarily in stocks of U.S. companies with market capitalization of approximately $10 billion or more.

Small- and Mid-Cap – Small-Cap invested primarily in stocks of U.S. companies with market capitalization approximately between $700 million and $3 billion. Mid-Cap invested primarily in stocks of U.S. companies with market capitalization approximately between $3 billion and $10 billion.

Global Equity – invested primarily in stocks of global companies.

Specialty/Sector – specialized investment strategy concentrated in stocks of companies in specific industry sectors or in physical assets such as commodities or real estate.

This material must be preceded or accompanied by a product prospectus for the Accelerator Prime℠ Variable Annuity. You should carefully consider a variable annuity's risks, charges, and limitations and the investment goals of underlying investment options prior to making any investment decisions. This and other information is available in the product prospectus, as well as the underlying investment fund options prospectuses. These prospectuses are available from your financial professional or www.delawarelife.com. Read them carefully before investing.

Variable annuities are subject to investment risks, including the possible loss of principal. Variable annuities are long-term investments designed for retirement purposes. Variable annuities have limitations, exclusions, charges, termination provisions, and terms for keeping them in force. The contract value is subject to market fluctuations and investment risk so that, when withdrawn, it may be worth more or less than its original value, even when an optional living benefit is elected.

[1] Optional riders are available at additional cost. Optional riders may not be available in all states.

[2] Net expense ratios reflect portfolio expenses minus fee waivers and/or portfolio reimbursements. There can be no assurance that the investment management company will continue to waive these fees following the period ending one year from the issue date of the current prospectus.

Guarantees, including optional benefits, are subject to the claims-paying ability and financial strength of the issuing insurance company and do not protect the value of underlying investment options within a variable annuity, which are subject to risk.

The Accelerator Prime℠ Variable Annuity is issued by Delaware Life Insurance Company and distributed by its affiliated broker-dealer, Clarendon Insurance Agency, Inc. (member FINRA). Both companies are members of Group One Thousand One, LLC (Group 1001).

Broker/dealer and state variations may apply. Contact your broker/dealer for availability.

Issued on Contract: ICC21-DLIC-VA-C-01 (state variations may apply).

Rider Numbers: ICC21-DLIC-VA-GLWMPB-01, ICC21-DLIC-VA-GLWMPB-02, ICC21-DLIC-VA-GMAB, ICC21-DLIC-VA-GMAB, ICC21-DLIC-VA-HAVDB, and ICC21-DLIC-VAROPDB (state variations may apply).
